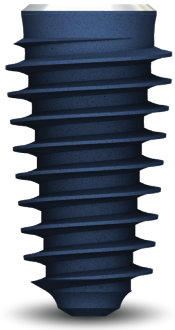
SPECIALS

Q4-2018 Specials

Place, load, and restore immediately with total confidence.

AnyRidge® Implants deliver better outcomes faster, along with significantly improved chairside production and patient satisfaction. Once dentists try AnyRidge, they never go back.

- The patented knife-thread design and XPEED® surface treatment allow you to load immediately and finish sooner.
- You can match the thread diameter to the bone density for maximum stability.
- AnyRidge procedures require fewer office visits so you can perform more cases.
- AnyRidge has 10 diameters and a single connection, which means less inventory and easier procedures.



AnyRidge®
IMPLANT SYSTEM

Our AnyRidge Starter Kit provides everything you need to get started.

You'll have all you'll need to take advantage of the unique design and features that provide more successful procedures, lower costs, and better esthetic outcomes.
