Posterior Composites: a hands-on course for therapists

Venue & Date of Course:

Wakefield Academy of Clinical Excellence, The Centre for Advanced Dentistry, 16th June 2011
13-14 Navigation Court, Calder Park, Wakefield, WF2 7B

Speaker: Dr. Paul Franklin and Dr. Carl Paisley

Course Description:

With increasing demand being exerted by patients for more aesthetic restorations, and new materials appearing in the marketplace, the demands upon the dental professional to provide high quality aesthetic restorations has never been higher. This hands-on course, specially designed for dental therapists will equip the delegates with the necessary background knowledge and clinical techniques to be able to prepare and place posterior resin composite restorations with an increased knowledge of the factors that contribute to the success of the restoration.

Learning objectives:

The course will involve both didactic and practical sessions covering the principals of bonding and restoration placement with reference to the properties of materials and their correct handling. Some of the very latest materials and methods of posterior composite placement will be covered including SDR™ and sectional matrices amongst much else.

Key Learning Outcomes

At the end of the course you will:

- Understand the principles of bonding to tooth surfaces
- Understand the principles of layering composite materials
- Understand the management of new materials for posterior restorations
- Understand the new bulk fill application technique of SDR™ and how this influences the work flow
- Compare both techniques in a hands-on session

Times: 9:00 Registration
9:30 - 15:00 Lecture and Hands- on Session

Course Cost: £130 for the full day course with a light lunch and receive a Ceram.X™ Mono Compules Starter Kit FREE*, worth £122**

Dr Paul Franklin

Paul Qualified from The University of Newcastle upon Tyne in 1989. After several years working in both general practice and community clinic settings, he gained a masters degree in restorative dentistry from the University of Leeds in 2001. Following a brief appointment as a Senior Dental Officer in the Community Dental Service Paul joined the University of Leeds as a lecturer in restorative dentistry and biomaterials in 2002. For the past 9 years Paul has been teaching restorative dentistry to undergraduate and postgraduate students and is currently Senior Clinical Teaching Fellow and leads the teaching in the clinical skills areas.

Dr Carl Paisley

Carl Paisley BChD MFDS RCS (Edin)

Graduated from Leeds University in 2003. Carl has had a mixture of hospital and practice experience, working as a full-time Lecturer in Restorative Dentistry at Leeds University between 2005 and 2010. Currently, he works in both NHS and private general practice, and teaches part time at Leeds University.
