

Sparkle V™

5% Sodium Fluoride Varnish with Xylitol

Did You Know?
Sparkle V Varnish delivers the optimum fluoride dosage while drying to a natural tooth shade on contact.

Simple & mess-free!

Sparkle V's non-clumping formula delivers a simple, fast and mess-free application and easy clean up.

The clear choice for maximum protection

Sparkle V™ eliminates the risk of cross-contamination with convenient single-use packaging. In addition, Sparkle V delivers the maximum allowable fluoride dosage and maintains a consistent fluoride level throughout application.

FDA approved for treating dentinal sensitivity
