# Sterilization Compliance Calendar

Keep track of sterilization procedures to protect your practice & your patients!

## How often should I perform biological monitoring?

CDC and AAMI guidelines recommend biological testing should be performed on a weekly basis.

Please check state recommendations for additional information.

Visit: [cdc.gov](http://cdc.gov) or [aami.org](http://aami.org)

## In addition to weekly monitoring, dental practices should perform biological monitoring:

- ✓ Whenever a new type of packaging material or tray is used
- ✓ After training new sterilization personnel
- ✓ After any sterilizer repair or maintenance
- ✓ After any change in the sterilizer loading process

For customer test results visit:  
[www.CrosstexBMS.com](http://www.CrosstexBMS.com)  
Or call Customer Care at:  
1-800-819-3336

## HELPFUL REMINDERS

Never run the BI on the first load of the day

Always run the BI on a full load if using a table top sterilizer

Sterilant penetration best monitored by placing BIs in the hardest to reach areas of sterilizer

## KEY

Place your initials over the date each week that BI testing was performed.

**EVERY LOAD.** Sure-Check® Sterilization Pouches Indicators will turn from pink to brown indicating Time/Temp/Steam sterilization requirements have been met.

**EVERY DAY.** STEAMPlus™ Class 5 Integrators Use a check mark to indicate daily testing with a Class 5 Integrator. Moving-front technology must reach into SAFE zone to pass.

**EVERY WEEK.** ConFirm® Biological Monitoring System Indicate Pass (P), Fail (F) or Invalid (I).
