

FOR IMMEDIATE RELEASE

DMG Applauds Arizona Clinic Serving Uninsured, Low-Income Children

Chandler CARE Center Children's Medical and Dental Clinic treats over 1,000 children annually

Ridgefield Park, New Jersey – April 2, 2019 – DMG, a leading manufacturer of dental restorative materials and preventive products, proudly supports the efforts of the CARE Center Children's Medical and Dental Clinic in Chandler, Arizona.

The CARE Center Children's Medical and Dental Clinic is a 501(c)3 organization that provides no-cost dental care and treatment to uninsured, low-income children. Of the youth it serves, 51% live in single parent households, and 60% come from homes with under \$25,000 in annual income for a family of four. An innovative partnership between Chandler Unified School District, St. Vincent de Paul Dental clinic, and Dignity Health Chandler Regional Medical Center, the Clinic is the only one of its kind in the Phoenix metro area providing access to free dental services five days a week for children in need. The support of dental product manufacturers and other industry members enable the Clinic to provide compassionate dental care to more than 1,000 Chandler youth annually.

The Clinic relies in part on product donations from dental manufacturers, particularly those whose products facilitate the minimal invasiveness that is needed for younger, more vulnerable patients who are apprehensive about receiving their teeth treated. DMG's Icon Caries Infiltrant is one such product that quickly and effectively blocks the progression of early stage caries with no need for drilling or anesthesia.

DMG is proud to support the efforts of the CARE Center Children's Medical and Dental Clinic to help this great organization continue to provide this important and desperately needed dental care.
