

## DMG Launches DMG-Connect

16 July 2019

**Ridgefield Park, New Jersey – July 16, 2019** – DMG today announced the launch of its DMG-Connect microsite, the latest clinician-focused initiative by the innovative dental materials manufacturer that is rapidly establishing itself as a go-to informational resource for dental professionals.

DMG stands apart as a dental products manufacturer by offering not only dental materials, but informational materials that enable dentists to better attract new patients, retain existing ones, and provide treatment with maximum efficiency.

Visit [dmg-connect.com](http://dmg-connect.com).

Every dental practice wishes to ensure successful clinical outcomes for its patients while also being as productive as possible. DMG-Connect was designed to facilitate this dual goal by giving clinicians access to e-newsletters, CE opportunities, webinars, videos, clinical studies, case studies, helpful tips, product literature and promotions.

Two key features of the site are the unique offers and sample opportunities available for its members. Once a member has selected the special offer or sample and completed their member profile, a DMG representative will call to process the order.

Among the many additional benefits for members is the ability to pre-order exciting new and long-awaited products from DMG, like LuxaCrown, the revolutionary semi-permanent crown material coming this September.

As a further gesture of its appreciation, DMG will email dental professionals who join the no-charge DMG-Connect microsite a Thanks-a-Latte gift card. [Join DMG-Connect and receive a Thanks-a-Latte gift card.](#)
