

## Take the Quantum™ Leap

### BISCO Launches a New Era in Composites

BISCO is pleased to announce the launch of [Quantium™](#), a universal composite designed to deliver exceptional performance in strength, esthetics and handling for a wide range of clinical cases.

Inspired by the concept of a “quantum leap”, a significant step forward, Quantum represents more than just a new product. It reflects BISCO’s dedication to innovation and clinical excellence. Formulated with a unique nano-micro filler blend, Quantum pushes the limits of both performance and esthetic excellence. By combining the power of science and chemistry with the artistry of dentistry, Quantum offers a versatile solution that performs flawlessly in both anterior and posterior restorations.

“At BISCO, we set out to create a composite that truly stands out,” said Timothy Sedlacek, BISCO Research Scientist “Quantum reflects our commitment to pushing boundaries and giving clinicians a product that can perform beautifully in the real world.”

#### Why Choose Quantum?

- **Durable Restorations:** Formulated with high strength, wear resistance and low volumetric shrinkage to create durable restorations.
- **Excellent Esthetics:** Designed to be easily polished and stain resistant to create esthetic results that maintain their appearance over time.
- **High Radiopacity:** Easily identifiable on radiographs for post-treatment evaluation.
- **Easy to Handle:** Quantum delivers smooth, non-sticky handling and its unit dose capsules can be warmed for an even greater flowable experience, depending on the clinician’s need and preference.
- **Low Volumetric Shrinkage:** Minimizes microleakage and ensures marginal adaptation.

Quantium is available in six VITA® shades (A1, A2, A3, A3.5, B1, and B2) in both body and enamel, as well as two effect shades (Bleach and Incisal). It is available in a 4g syringe or 20ct. 0.25g unit dose refills as well as two introductory kits (syringe and unit dose). The kits include: Quantum A2 and A3 body and enamel, All-Bond Universal® and Select HV® Etch w/BAC.

#### BISCO’s Direct-To-You Advantage

We’re committed to helping you perform your best dentistry. That’s why BISCO ships practically fresh, made-to-order products directly from our U.S. facility, ensuring the longest shelf life possible. You’ll receive direct-to-you pricing with no distributor markups, and support from our experts, not automated systems. Just real people, providing real help, in real time. And with our 100% satisfaction guarantee, you can order with total confidence.

---

#### Quantium isn’t just a new composite—it’s a leap forward in restorative dentistry.
