You choose time-saving materials to be more efficient. But, as you know, while patients appreciate shorter appointments, their top concern when it comes to a restoration is how it looks—even in the posterior area. That's why 3M created 3M™ Filtek™ One Bulk Fill Restorative. Designed for posterior restorations, it gives you the simplicity and speed of bulk placement up to 5mm... without compromising esthetic results. Now efficient restorations can be esthetic, too.
